

CONSUL[®]

Greater efficiency, greater success

NEW PRODUCTS 2027

**” THE BEST WAY TO PREDICT THE
FUTURE IS TO INVENT IT.**

Alan Kay

An investment in the future

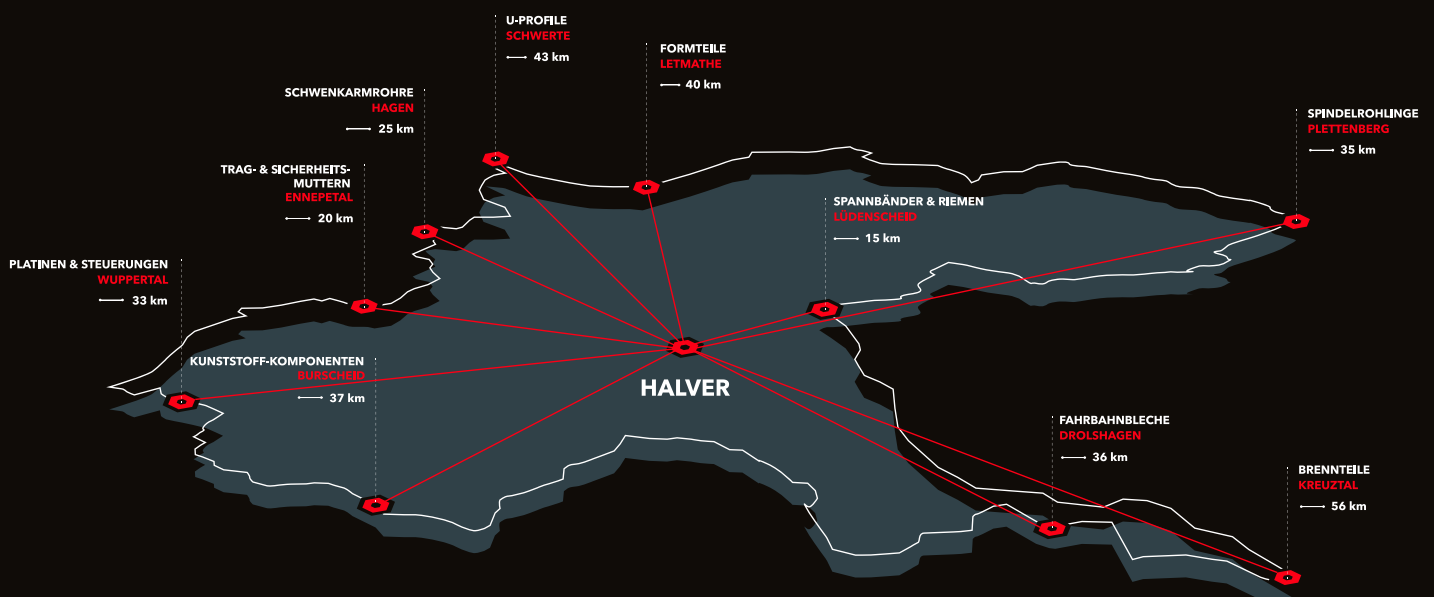

WHY ARE WE CHANGING THE PRODUCT RANGE?

- Adaptation of the new regulation EN DIN 1493:2026
- Consolidating of our product range
- Staying one step ahead of the competition, with smart ideas!

Lifting platforms with clear origin and reliable durability

MADE IN GERMANY - REGIONAL & SUSTAINABLE

- Complete production in Germany
- Local network of high-quality component suppliers
- All major suppliers within a 100 km radius
- Ensuring agility and rapid responsiveness
- Reducing the carbon footprint through avoidance long transport routes
- Supporting the regional economy through local value creation
- In-house service

2-POST LIFTING PLATFORMS

PROVEN TECHNOLOGY & MAXIMUM FLEXIBILITY.

With Consul's 2-post lifts, you can rely on proven technology, high flexibility, and best working conditions in your workshop. From small cars to vans: Consul lifts safely raise any vehicle to the appropriate working height. Robust technology, easy operation, and high reliability make Consul lifts a

reliable choice. Faster, more ergonomic and more efficient tinning and repair in everyday workshop life.

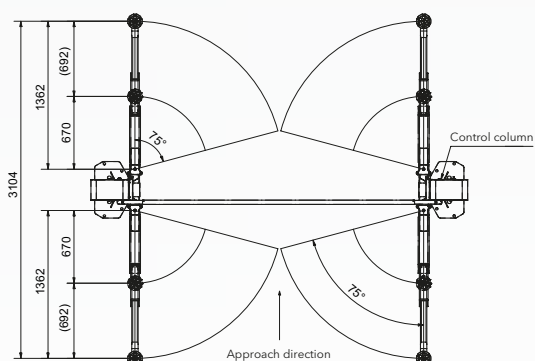

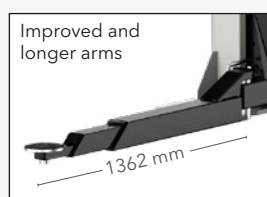

Consul 2-post lifts - the reliable solution for efficient work and maximum flexibility.

2-POST LIFTING PLATFORMS

MORE COMFORT. MORE EFFICIENCY. MORE SUCCESS.

With Consul's new ComfortSeries, vehicle servicing becomes more comfortable, efficient, and economical. The generous access to the vehicle interior enables optimal working conditions and supports a smooth, time-saving workflow. At the same time, it ensures greater efficiency for your workshop. Thoughtful design for ergonomic work. It helps to

avoid unnecessary costs and damages. The Comfort series was developed for the requirements of professional modern workshops.

Consul Comfort Series - more comfort for your employees, more efficiency for your workshop.

SCISSOR LIFTS & COMPACT SCISSOR LIFTS

MAXIMUM FLEXIBILITY AND VERSATILITY.

CONSUL 0.35 Series - More flexibility. More performance.

Compact scissor lifts made in Germany. Consul compact scissor lifts are getting a new concept. Extendable platforms on both sides with easily lockable ramps make these two new products extremely fle-

xible. Whether for small cars or Transporter T6 long, here it's simple and without major compromises.

Our new concept ensures absolute flexibility.

CONSUL 0.42 Series - Versatility meets performance.

The CONSUL scissor lift series, with its well-thought-out functionality, offers the right solution for almost any workshop. With a 4,200 kg lifting capacity, a robust scissor design, and electro-hydraulic master/slave system, it impresses with its safety, stability, and user-friendliness. Available as onfloor-

mounted or flush-mounted versions and can be equipped with an integrated wheel-free lift and an wheel alignment kit (also retrofitted).

Made in Germany - for the highest standards in everyday workshop use.
